

# Welcome to MosquitoMax™ Misting Systems...

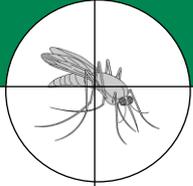

**the higher standard in outdoor  
automated insect control**

**when we move in... they move out.**

# Enjoy your back yard again. Around the clock and all year round

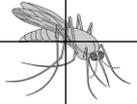

- Mosquito borne illnesses are real.
  - West Nile Virus
  - Western Equine & St.Louis Encephalitis
  - Canine heartworms
  - Malaria
  - Yellow Fever

**when we move in... they move out.**

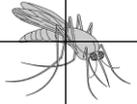

# How MosquitoMax works

- Stainless steel nozzles and special tubing are strategically placed around your yard.

# How MosquitoMax works

- A highly diluted insecticide/water solution is sprayed at morning and night. The mist is super fine.
- Two minutes a day will rid your yard of mosquitoes.

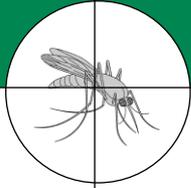

# How MosquitoMax works

- The system is completely automated providing hassle-free 24 hour insect control.

Optimum daily spraying times

# MosquitoMax can use Pyrethrin based conventional insecticides or EPA exempt products and repellents

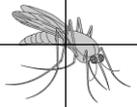

- Natural Pyrethrum does not leave a residue and is low in toxicity.
- Permethrin is low in toxicity and provides residual protection.
- Organic plant oils: Absolutely all of the product's ingredients appear on the EPA's "Exempted" 25(b) Active Ingredient List and the 4A Inert Ingredient List.
- Cedar based repellent
- Non repellent products are effective when used as directed on mosquitoes, fleas, gnats, flies, wasps, spiders, ants and other insect pests.

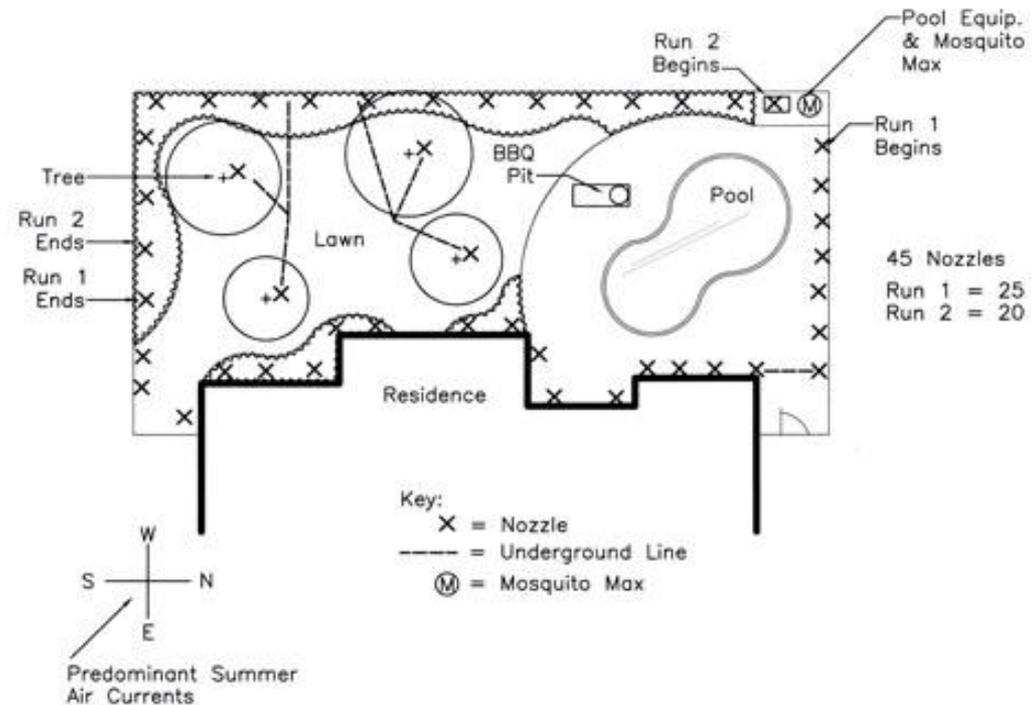

**when we move in... they move out.**

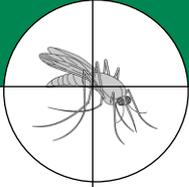

# We start with a custom layout

- Proper design is crucial to maximum control.
- On-site visit identifies optimum nozzle placement.

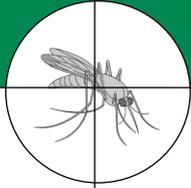

# Careful attention to detail makes the system virtually invisible

**when we move in... they move out.**

# MosquitoMax prides ourselves in professional installation

All lines are carefully installed for maximum coverage and discreet installation.

Fences, trees, eaves or in ground.

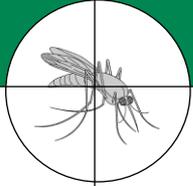

Risers are used when no other structures are available.

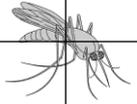

**when we move in... they move out.**

# Flexible and intelligent programmable controller

when we move in... they move out.

# MosquitoMax Consumer Benefits

- Smaller – Safer - lockable enclosure – chemicals completely secure
- Intelligent features
- Temperature sensor
- Leak detection
- Water only
- Reliable software driven controller
- Award winning BBB service

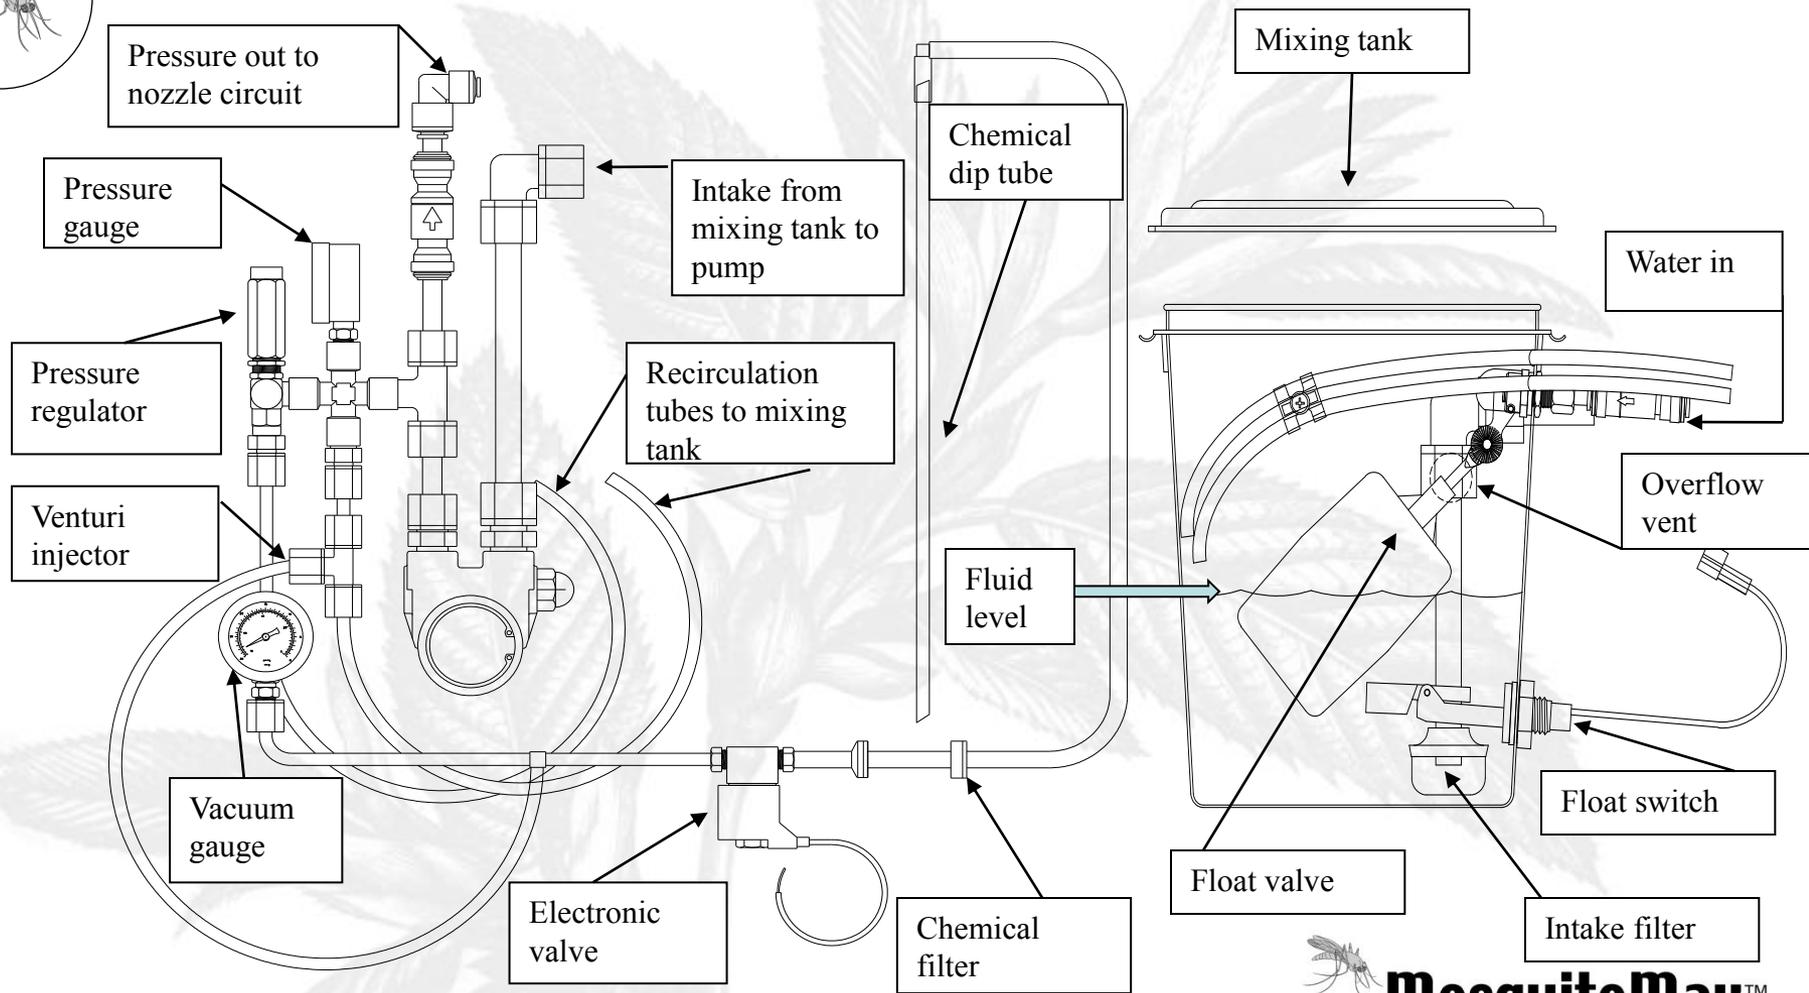

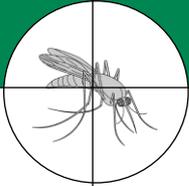

**Wall mountable  
space saving design**

**when we move in... they move out.**
